AUGUST 2014

National Tattoo Supply Inc. was established in August 1974 in New Hyde Park, Long Island, New York. With the support, advice and guidance of such notable tattooists as the late Terry Wrigley, Bob Shaw and Peter Tat 2 Poulos we were able to set the professional standards of this company. We still do not advertise in any media and we do our best to avoid selling tattooing equipment to anyone who is not a professional tattoo artist.

We sell our products to both members and non-members of the National Tattoo Association, Inc. You do NOT need to be a member of the NTA to buy from National. Our only requirement is that you be a professional tattoo artist. In February of 1991 we moved to Allentown, Pennsylvania. Our business flourished and in September of 2001 we moved to a larger facility. We are now located at: 485 Business Park Lane, Allentown, Pennsylvania, 18109-9120.

Over the past few years we have added hundreds of new products. We are always looking for the best in tattoo equipment and supplies and we welcome any suggestions from you. We want to thank you, our valued customer and friend, for your part in the success of this company. We promise to continue to offer the products that you require at the best possible cost to you.

We ask that you continue to allow us to serve you and that you do your best to maintain the professional standards so important to the future well-being of the tattoo profession.

Thank You

Don & Flo Makofske Co-Founders & Owners of National Tattoo Supply, Inc.

The Edge II Power Supply

The Edge II power supply features a digital LCD volt meter and will run from 3-18 volts with a DC output current of 2.0A max. The 10-turn potentiometer and knob are mounted on top of the box so they do not interfere with the interchangeable clip cord and foot switch jacks located on the front panel. Pressing the knob will change the tuning from fine to rapid. The Edge II also automatically switches between 105V ~ 240V for use in any country and is equipped with short circuit protection. Available in black only. Weighs 2.1 lbs. Approximate Dimensions: 6.75"L x 4.17"W x 2.5"H
A 1 year warranty is included.

Price: $160.00
Catalog #: EDGE-2

National Supreme Power Supply

The National Supreme power supply features a digital LED volt meter and will run from 0-18 volts with a DC output current of 2.0A max. The 10-turn potentiometer and knob are mounted on top of the box so they do not interfere with the interchangeable clip cord and foot switch jacks located on the front panel. The dual voltage switch located on the back of the box allows for manual switching between 120V/60hz or 230V/50hz. The Supreme also features overload protection and easy fuse access. Available in black only. Weighs 2.2 lbs. Approximate Dimensions: 6.75"L x 4.25"W x 2"H (2.50"H from base to top of knob). A 1 year warranty is included.

Price: $99.00
Catalog #: SUPREME

The National Commander Power Supply

National's Commander DC power supply is equipped with Class A voltage and current meters. It features an alarm for overload indication and short circuit protection. The Commander's over temperature protection prevents overheating. The dual voltage switch located on the back of the box allows for use in any country. Other features include: Removable line cord, green LED power on indicator light, and two interchangeable 1/4" jacks. 1 Year Warranty.

SPECIFICATIONS:

AC INPUT: 120V (60HZ) [105V ~ 132V] INPUT POWER: 100-120/200-240V~,60/50Hz

DC OUTPUT VOLTAGE: 1 ~ 22.5V DC OUTPUT CURRENT: 2.0A max

RIPPLE: 50mV max REGULATION: 0.4V max

DIMENSIONS: 8.9"L X 7.3"D X 2.9"H [227mm x 186mm x 73mm] WEIGHT: 3.99 LBS. [1.8 KG]

Price: $179.00
Catalog #: CMNDR

Nemesis Power Supply

We are pleased to offer you the Nemesis Power Supply , brought to you by the same people who brought you the world famous KWADRON needles. The power supply has a built in hybrid latch switch so the power supply can be operated without a foot switch. You can still connect a foot switch up if you prefer. This power supply is extremely light weight and very compact.
Comes with a 12 month manufacturer warranty.

Technical Data

- Max Power Output: 24w
- Output Setting: 10 turns on the precision potentiometer to reach maximum output
- Three Digit LED Display
- Non Slip Base
- Weight (g): 200
- Dimensions (mm): 70 Length x 80 Width x 35 Depth

Price: $250.00
Catalog #: NEMESIS-B (BLACK ONLY)

The Spinner Tattoo Power Supply

SPINNER tattoo power supply was built with the rotary user in mind. This is the first power supply which will allow you to calibrate your rotary machine so that you can use Cycles per second to adjust your machines speed. Of course you can still use voltage as a measurement as well.

The Spinner has simple touchpad screen which is really responsive and allows you to change settings quickly and easily. It has nine programmable preset slots and a number of menu features to which enable you to get accurate information on what your machine is doing. The Spinner is a digital power supply that offers a clean, ripple free DC current to ensure the long life of your rotary motors. Some power supplies use power switching to mimic lower voltages, effectively turn the power on and off to replicate a reduced voltage, this stop start delivery of power if not at a high enough Hz will eventually damage the motor and reduce its life.

With 9 programmable presets, multiple languages, personalized display settings and a host of other features the Australian made Spinner will offer a high end multifunctional power supply that will offer unique features to suit the serious rotary machine enthusiast. (Don't worry it will still run your coil also!)

Price: $470.00

REBUILD KIT

Custom Engraving Not Available on The Titanium

The National Titanium machine head comes assembled but **without a tube, grip or needle bar**. The Titanium is a solid, polished titanium milled frame with a slot for adjusting the position of the binding post. It has the swing-gate style tube holding device for easy changing of tubes and needle bars. Titanium is stronger than steel but almost as lightweight as aluminum. TITANIUM and NATIONAL are engraved on the side of the frame but you can also get the frame without the engraving.

Approximate weight, without tube: 6 wrap=6.5 oz. 8 wrap=7 oz.

Comes with cherry wood box that will accommodate the machine head only. Tube, grip and needle bar will not fit in this gift box.

MADE IN THE U.S.A.

The following parts come standard on the National Titanium Machine. Use this list as a reference when looking for replacement parts.

National is now an authorized distributor of SWASHDRIVE™ TATTOO MACHINES

Swashdrive GEN 8 Rigid. The latest evolution of our swashplate machines the Gen 8 has a bigger motor than the previous Gen 6 & 7, comes with a needle tensioner and a funky new look. This machine is a revolution in tattooing, offering a smooth reliable drive with a lot of flexibility. Optional weight set available. Dual Connection for both RCA and Clipcord. Black only.

Price: $550.00 **Catalog #: SWASH-GEN8R** **Type: RIGID GEN 8**

Set of two small weights designed to fit to the top of the Give Clip on your Swashdrive Gen8 or Whip B. This additional mass moving forward adds that much more of a hit to your tattooing with the two weights sets it increases your potential settings on your machine to 30.

Price: $20.00 **Catalog #: GEN8-WTS Type: GEN 8 WEIGHT SET**
Price: $20.00 **Catalog #: WHIPB-WTSType: WHIP B WEIGHT SET**

Cutback Whip

The Swashdrive machines have had a revamp to make them as small as we can and streamline them in the process. The cut back Whip has the same unique action as the original machine. It has been made shorter with RCA being standard and a simple RCA to clip cord adapter. We have streamlined the frame and beefed up the neck/tube clamp area.

Price: $495.00 **Catalog #: SWASH-WHIP** **Type: Cutback Whip**

NATIONAL TATTOO SUPPLY

WWW.NATIONALTATTOO.COM

Dragonfly

Price: $650.00
Catalog #: DF-BLACK
Type: EVIL BLACK

Price: $650.00
Catalog #: DF-RED
Type: DEVILISH RED (SHORT STROKE)

Designed with the tattoo artist in focus and manufactured with the highest quality materials and components available. The Dragonfly is a state of the art rotary based tattoo machine with features that gives it several advantages compared to other tattoo machines. The adjustable suspension system allows the needles hitting force to be adjusted, the low noise, the light weight, the needlebar retainer and the ability to accept standard grips, tubes, needles and power supplies with RCA or clipcord are some of the features and improvements incorporated in to the design without compromising the function or ergonomics.

Cams for Dragonfly and Stingray machines. A smaller rise angle equals a faster needle (harder). A larger rise angle equals a slower needle (softer). *Please see your machine user manual for instructions on replacing the cams correctly.

Price: $30.00 **Catalog #: CAM-BLACK** **Type: 3.5mm Long Stroke, Hard**
Price: $30.00 **Catalog #: CAM-BLUE** **Type: 3.5mm Long Stroke, SMOOTH**
Price: $30.00 **Catalog #: CAM-GREEN** **Type: 3mm Medium Stroke, Hard**
Price: $30.00 **Catalog #: CAM-RED** **Type: 2.6mm Short Stroke, Smooth**

Stingray

We are proud to present the Stingray tattoo machine. The goal to create a tattoo machine that can make lines like a coil machine and still have the benefits of a rotary machine has been a vast challenge. Although the Stingray looks very similar to the Dragonfly it is a completely new type of tattoo machine with a Desmodromic roller cam system. The new cam system enables to create a needle motion that is perfect for lining and color packing. Like a coil machine but without the weight, the aggressive sound and naturally with greater precision and consistency. The cam system allows you to change the stroke length and also the ability to totally change the characteristics and behavior of the machine by changing to different cams, the standard version comes with a 3.5mm stroke. Changing the cam is easy and takes only a few minutes. The Stingray is Patent Pending.

Price: $700.00
Catalog #: SR-BLACK
Type: EVIL BLACK (3.5mm STROKE)

swisstattoomachine

the tattoo machine for the specialist

Lining, shading, coloring with the same machine. Less weight, lower noise and vibration. Super lightweight / hightech construction / 110 g
Strong power - 3,2 watt, Voltage 5,5 - 7 volt. All current armature bars and needle bars can be used. Available clip cords and adapters can be used! Clipcord or Chinch (RCA/JACK) available. Isolated, free from electric smog. Swiss quality, Swiss made. 1-Year Guarantee for this product if any defect due to faulty materials or manufacture occurs. The Warranty does not cover machine parts that are subject to wear, that can be considered as consumable parts by their nature, e.g. rotary ball-bearing. Each machine is individually numbered.

Weight ca. 110 g
Height 55 mm

Apex Overkill

The Apex Overkill is a rotary tattoo machine that is built from a solid block of aircraft aluminum. Not only does it have a sleek appearance, but it also feels great weighing in at just 122 grams. It tattoos amazingly well and has the same versatility of a coil machine, giving it the best of both worlds. Its super strong Swiss Made Maxon "Overkill" motor, means you can tattoo at a much lower voltage, while still piercing the skin effortlessly. This machine is a workhorse that is built to last!

EGO rotary tattoo machines have been designed and made by world renowned tattoo artist Bez of Triplesix Studios, Sunderland. Bez has invented the remarkable "power triangle" system. Each machine comes with a variety of different power triangles and each different color is a different density of rubber. This allows the artist to configure their EGO exactly how they want it, in terms of give and throw. The power triangle system efficiently replicates the front and back spring system from coil machines, thus combining the reliability and consistency of a rotary machine, with the same workability as a coil machine. Weight: 122g

Phono Connection - EGO 1.5M Power Cable included free

Price: $625.00	**Catalog #: EGO-RB**	**Type: RED / BLACK**
Price: $625.00	**Catalog #: EGO-SB**	**Type: SILVER / BLACK**
Price: $625.00	**Catalog #: EGO-BB**	**Type: BLACK / BLACK**
Price: $625.00	**Catalog #: EGO-PG**	**Type: PURPLE / GREEN**
Price: $625.00	**Catalog #: EGO-BG**	**Type: BLACK / GREEN**

The autoclavable **Biogrip** comes as a pack of 2 and is ergonomically designed to give you the utmost comfort and actually give you more of a marker pen experience while tattooing. Its shape means you can comfortably work, without needing to grip too tight and also provides your wrist with an optimum balance. There is an extended lip at the tip end to ensure you will not get calluses to your fingers. High Grade Silicone Grip Size: Fits up to a 25mm tube.

Price: $28.00 **Catalog #: EGO-BIO-B25**

Replacement pack of **power triangles** for use with EGO Rotary machines. Each different color is a different density of rubber; black is hardest, followed by blue, red, purple, green and finally yellow is softest. This allows the artist to configure their EGO exactly how they want it, in terms of give and throw. The power triangle system efficiently replicates the front and back spring system from coil machines. Combines the reliability and consistency of a rotary machine, with the same workability as a coil machine. Pack includes: Black: 2 Blue: 2 Red: 2 Purple: 2 Green: 2 Yellow: 2 Power Triangle Armature T-Bar: 1 EGO Grommets: 2

Price: $8.50 **Catalog #: EGO-TRI**

STAINLESS STEEL OUTLINER TIPS

These 100% Stainless Steel Tubes, including tips, are designed to hold a large supply of ink and will not spit. Stainless Steel is long wearing so with normal use they will last for many years. No Solder is used in the construction of these tubes. These tubes feature open fronts for sanitary cleaning. They are the best performing tubes on the market. All of National's Grips will fit all our tubes.

Made in Germany

National is the Exclusive U.S. Distributor for

Gripgun®

Disposable Grip with Variable Weights

National is proud to be the exclusive U.S. distributor for Gripgun® Disposable Grips with Variable Weights. Gripgun® was designed by tattoo artists for tattoo artists. Made entirely in Germany, Gripgun® offers consistent quality.

One set of 4 weights can be used in multiple Gripgun® grips. Adjust the weight of the grip by inserting the amount of weights you choose. Use one or use all four-it's up to you! The tubes come pre-sterilized and ready for use and the weights can be used again and again without needing to be sterilized. Gripgun® can be used with all coil and rotary tattoo machines.

Gripgun® Weight Set

Gripgun weights are sold in a set of 4. Each weight weighs approximately 1 oz. A single weight set can be used multiple times with many tubes and does not require sterilization before each use.

Silicone Grips

Please Note: The silicone covers were designed to fit these stainless steel grip inserts only. The grips and the covers are tapered. The covers are available for replacement only and are not guaranteed to fit any other grips. These soft, autoclavable silicone rubber grips come with stainless steel grip inserts and set screws. Approximately 2" long and 1" wide. (The tube barrel shown in the photo is a small barrel that helps keep the set screws in place during storage and shipping only.)

The patent pending Wrath GEN2 Tubes are the newest innovation of TATSoul. Our Second Generation Wrath Tubes have been redesigned to offer even better ink flow, better needle visibility, and better grip control. Additionally, we were able to create the first OPEN magnum disposable tube - only achievable with no flex through our special imported Japanese polymer. Constructed from a specially formulated gel-like material and patented shape design, our Vortex Grips provide maximum comfort and shock absorption. Unlike typical rubber grips, our Vortex grips are custom molded directly on the tube to prevent any 'spinning' during tattoo sessions. The GEN2 Vortex grip allows for better control and comfort. The semi-transparent Wrath Tube provides easy viewing of ink in the tube reservoir. The dark tint reduces visual ink blots for a cleaner look. Smooth contours in Wrath Tubes make sure needles do not snag while being inserted. The specialized plastic used in Wrath Tubes allows for a thin profile tip, while maintaining exceptional durability and heat resistance. The thin profile tip minimizes the distance between the needle and the skin for more precise artwork. Wrath Tubes are made with the most precise injection molding technology. Free from excess plastic, Wrath Tubes produce maximum ink flow and consistent needle support. The improved tips allow for improved ink flow and needle visibility. Tubes individually packaged and sterilized by Ethylene Oxide Gas.

Insulator Washers

Used to insulate binding post and rear post from tattoo machine frame. Made in the USA. Pack of 30.

Price: $6.00
Catalog #: MA54

Soldering Lugs

For connection between posts and coils. Made in the USA. Pack of 30.

Price: $2.50
Catalog #: MA57

Nylon Beads

Place one between contact locking screw and contact screw in your binding post. The bead locks in screw without damage to the contact screw. Finger tight is usually sufficient when using this bead. Made in the USA. Pack of 50.

Price: $2.00
Catalog #: NB50

O-Rings

These O-Rings are used to take the backlash out of the front springs. They are also used for noise reduction and to smooth the running of the machine. Simply fits over the front spring to the point where it just touched the armature bar. Made in the USA. Pack of 30.

Price: $4.25	**Catalog #: MA59**	**Type: SMALL**
Price: $4.25	**Catalog #: MA59M**	**Type: MEDIUM**
Price: $4.25	**Catalog #: MA59L**	**Type: LARGE**

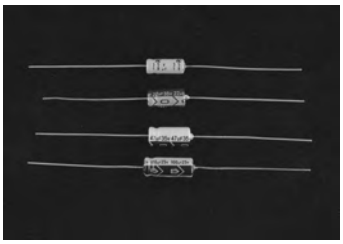
Yoke

Our yokes come with two 8-32 thread 5/8" long flat head socket cap screws with socket head size 3/32. Dimensions: 1-3/8"Lx3/8"Wx3/16"H.

Price: $3.00	**Catalog #: MA32**	**Type: BLACK ANODIZED**
Price: $1.80	**Catalog #: MA32S**	**Type: NICKEL PLATED**



Capacitors

Capacitors are used on tattoo machines for the purpose of reducing the spark, reducing the wear of the points and contact screw, and to give a smoother current. Generally, the higher the UF number the slower the tattoo machine will operate while increasing the impact of the needles to the skin.

Price: $.75	**Catalog #: MA48**	**Type: 10UF, 35 VOLT**
Price: $.75	**Catalog #: MA49**	**Type: 22UF, 35 VOLT**

Price: $4.50 **Catalog #: SKTAT** **Type: pack of 5 replacement tips**

Antex Soldering Irons

These soldering irons are a significant improvement for making tattoo needles. The tips slide on directly over the heating element. Heat up and recovery times are exceptionally fast. With the three-prong plugs the tip is grounded, making these irons safe. The tips cannot freeze onto the heating element and there are no threads to bind or set screws to freeze. To replace the tips, simply remove the old one and slide on a new tip. Available in 110-115 volts only.

Price: $27.00 **Catalog #: SI2N** **Type: large 25watt soldering iron**
Price: $23.00 **Catalog #: SI1N** **Type: miniature 19 watt soldering iron**

Porta-Trace Light Boxes

The Porta-Trace line of Light Boxes are famous for being reasonably priced and highly durable. Porta-Trace Light Boxes have virtually no "hot spots" found in competitive units. Frames and reflectors combined with the thick plexiglas top provides uniform and even lighting over the entire durable and stable viewing surface. Made of stainless steel for both durability and long life. The Porta-Trace Light Box will maintain its attractive appearance for years. Made in the USA.

Price: $45.00	Catalog#: PT1012-1	Type: 10" x 12"
Price: $97.00	Catalog#: PT1118-1	Type: 11" x 18"

LED Light Panels

Introducing the LED Light Panel by Gagne Porta-Trace! Whiter, Brighter and Best Value Available. The Light Panel has a ultra-slim 3/4" profile and removable adapter to fit conveniently into your brief case or portfolio and transport room to room. Mount it on the wall or place it on your tabletop in either a portrait or landscape orientation (display stand and legs not included). The LED Light Panel is an Eco Friendly Design with long lasting LED lights and estimated bulb life of 50,000 hours with low power consumption. The Light Panel uses the brightest LED lights available while providing uniform lighting across the work surface with a beautiful white hue. This light box has an aluminum frame with a durable Plexiglas working surface. This unit is manufactured in the USA with all components being UL, RoHS and CE compliant. The Light Panel is driven by 100/240Vac allowing usage in the US and abroad (requires appropriate plug or outlet adapter). 100/240Vac, .50/60Hz, Anodized Aluminum frame.
Made in the USA.

Colored Pencils

As every artist knows, a beautifully colored design sheet on the wall helps a potential customer decide on getting that design tattooed on himself. We have found that there are several advantages to using colored pencils for coloring design sheets. Colored pencils will not smear or run if the design sheet should happen to get moist. Also, the colors of these pencils look similar to those colors of actual tattooing. We understand that many artists had trouble locating a good brand of colored pencils, so we stock a variety of colors for your convenience. 7" long, thick lead.

Price: $65.00 **Catalog #: LWS-20** **Type: 20 LB. PAIL**

Benz-All

Benz-all is a formula consisting of a very efficient germicidal concentrate with an anti-rust factor included and has been shown to be effective in the chemical disinfection of professional hospital instruments and equipment. In the recommended dilutions it is odorless, non-staining and will inhibit rust formation. Its extreme wetting action and low surface tension give it a distinct advantage for disinfection of hospital and dental equipment. One 40cc bottle makes on gallon. Made in the USA.

Price: $2.25 **Catalog #: EFA20** **Type: (1) 40CC BOTTLE**
Price: $27.00 **Catalog #: EFA21** **Type: (15) 40CC BOTTLES**

Dr.-derm Protective Film

Dr.-derm by Brian Everett is a thin, flexible, hypoallergenic film with a medical grade adhesive that forms a water proof barrier on dry skin. This breathable film lets moisture vapor out, allowing the skin to function normally as the tattoo heals. Dr.-derm protects tattoos from rubbing and abrasion, as well as protecting bedding and clothing. Dr.-derm flexes and stretches, and is comfortable to wear. The protective film is transparent, allowing the tattoo to be seen as it heals.

Sterilized, Patented, Made in the USA.

Price: $3.50 **Catalog #: DD-SHEET** **Type: 6" x 8" Single Sheet**
Price: $29.50 **Catalog #: DD-ROLL** **Type: 6" x 5 yard roll**

NATIONAL TATTOO SUPPLY

WWW.NATIONALTATTOO.COM

National's Dry Powdered Colors

The following colors come in powdered form in 1 lb. or 1/2 lb. containers. The container size for each ink may vary due to the consistency of the inks as some are fluffier than others. To mix our colors we suggest filling the container 1/3 of the way with powder and then adding enough liquid to fill the container so that it remains 1/3 empty. We recommend using Dispersing Solution mixed at 3 parts HLCS and 1 part Witch Hazel. National's Inks are Vegan Friendly and Made in the USA. Colors shown are a representation of actual color and may vary.

National's Homogenized Liquid Colors

Full strength, pure, safe, concentrated colors. National's Homogenized Color is a creamy liquid that comes ready to use. These colors do not have to be thinned but if you do wish to thin them we suggest using: (3) parts Dispersing Solution and (1) part Witch Hazel. This is the ultimate is tattoo color, nothing on the market can compare or even come close. All color is tested for safety and durability. Vegan Friendly. Made in the USA. Colors shown are a representation of actual color and may vary.

X-PRESSIONS PIERCING AFTERCARE

X-Pressions Piercing Aftercare from the makers of Tattoo Goo.
For internal and external piercings!!! A new ready to use CPC- MSM Complex formula. X-pressions ™ Piercing aftercare contains Cet-C, a powerful anti-bacterial and anti-microbial. Cet-C is effective against Staph aureus, E. coli, Candida albicans, Aspergullis niger and Pityrosporum ovale. X-pressions is water based and contains no alcohol that can burn new piercings. X-pressions has a pleasant flavoring which provides for no bitter aftertaste. X-pressions is packaged in a convenient 2oz. spray bottle. The ready to use formula eliminates the need to dilute the product in water as with other variants of this product. The spray fits in pocket or purse.

Sold in display cases of 24 2oz. sprays.

X-PRESS…$80.00 Display case of 24 2oz. Sprays.

Special Services

Thermal Copier Rebuild Service

National can rebuild and repair older model 3M and Standard thermal copiers.

The fee per copier is $30.00/hour plus parts and return shipping.

There is a $30.00 minimum fee.

Please call 800-310-2996 to speak with a technician before sending your copier to us.

Machine Rebuild Service

For National Tattoo Machines

We can repair, rebuild and retune your National Tattoo Machine. The cost per machine is parts and a $5.00 labor charge plus return shipping. You can also have your frame powder-coated for an additional $15.00

For Non-National Machines

We may be able to repair and rebuild machines that are not manufactured by National. We cannot guaranteed our parts will fit on other machines. There is a $35.00 labor charge for this plus the cost of parts and return shipping.

Please call 800-310-2996 before you send your machine(s) back to us.

Custom Engraving

We offer custom engraving of National's Tattoo Machines.

The charge for text only (choose script or bold print) is $15.00 per machine.

If you would like a logo engraved on your machine there is an additional set up fee of $5.00 plus the $15.00 engraving charge. Machine frames can also be clear coated after engraving for an additional $5.00.

Artwork must be submitted to customerservice@nationaltattoo.com after you place your order.

Please call 800-310-2996 for more details or to place an order.

FLASH CATALOGS and PIERCING CATALOGS are available upon request.
